

On Tuesday 17 March 2020, CASA conducted safety check test flights over the northern Sunshine Coast in preparation for commissioning the new airspace and flight paths for runway 13/31.

The Flightradar24 App shows the CASA aircraft in red with the flight routes followed in green and yellow.

21 May 2020 was the proposed opening date for the new runway 13/31, but due to the Covid-19 pandemic, it now seems unlikely to occur on this scheduled date.
